

Chief Consulting Officer

(m/f/d) | Munich, Germany | Hybrid

Lead and oversee our German consulting operations! From day one, you will take on a lot of personal responsibility and lead and build a competent and dedicated team of experts, to tackle challenging projects around the implementation and further development of business IT solutions.

We are much. Consulting a fast-growing international consultancy with a focus on business IT & ERP systems. We are ambitious, team-oriented & passionate about our work. You seek professionalism but without the usual rigid structures & processes? Look no further!

Our offer

- **Your expertise counts:** as a leader of leaders, you contribute your experience and ideas to improve our operations and expand our success even further
- **Real impact:** with us, nothing is set in stone - shape the company and turn your approach into action
- **Innovative, result-driven work culture:** look forward to fast decision-making paths and lean, orderly processes
- **A motivated, high-performing team:** work with like-minded professionals with strong expertise and passion for what they do
- **Flexible working hours:** we believe in true work-life balance and reasonable working hours - structure your work in a way that suits your life, even as a leader
- **Plenty of other benefits:** generous bonus, fitness centre, public transport, bike leasing, state-of-the-art equipment - we go beyond fruit baskets & free drinks

Your profile

- At least 5 years of experience as an IT project leader with a background in IT Consulting
- Extensive experience with ERP systems or business IT in general
- Proven leadership and exceptional team management skills
- Flawless communication with c-level executives and employees alike
- Convincing personality and great interpersonal skills
- Very sharp comprehension skills, analytical way of working & high commitment
- Passion for challenging tasks and joint progression
- Mother tongue level German & English

Your tasks

- Support and guide our operational ERP consulting Team Leaders through their daily challenges and enable them to thrive
- Enhance our operational processes, consulting practices and the quality of our services
- Define and implement innovative IT architectures, drive state-of-the-art business strategies
- Maintain and expand business relationships with our clients
- Function as a final point of contact during client escalations and make decisions that benefit the client & us
- Be a part of pre-projects and convince clients of our services and solutions
- As a bridge between solutions and consulting teams, you transfer projects into the operational stages
- Monitor budgets & resources to make sure operations run smoothly
- Support our CEOs in their daily duties and in strategic decisions alike
