

Intern IT Consultant

(m/f/d) | Munich, Germany

You want to find out if a career in IT Consulting is right for you? At much. we offer a hands-on internship, that that allows you to quickly advance your skills and build in-depth expertise of enterprise software across various companies and industries.

We are much. Consulting a fast-growing consultancy with offices in Germany and Portugal and a focus on business IT & ERP systems. Join our multicultural team of creative problem solvers and learn from top experts in their fields!

Our offer

- **Exciting & challenging tasks:** you are too clever to be on powerpoint duty 5 days a week - with us, you carry responsibility from day one
- **Professional mentoring throughout your entire internship:** after a carefully structured four-week onboarding plan, you will be closely working with experienced IT consultants
- **A long-term perspective:** if both you and us feel like much. is the right place for you, we would like to invite you stay beyond your internship
- **Real team spirit:** we are an ambitious and high-performing international team that knows how to balance hard work with having fun
- **Above-average remuneration:** € 2,250 / month (gross)
- **Plenty additional benefits:** fitness center, state-of-the-art equipment, self-learning budget - our employees are our biggest assets & we do our best to show it

Your profile

- Studies in the field of business informatics, computer science or business administration give you the perfect background for this role
- You possess a very fast comprehension, an analytical way of working and thinking as well as a high level of commitment
- You enjoy solving demanding & challenging problems
- You are an English & German speaking team player

Your tasks

- Support your team in the implementation and conception of demanding IT projects
- Analyse and document processes & IT architectures
- Prepare feasibility, risk & ROI analyses
- Train our customers in the use of their new system
- Further develop our internal ERP system
